MILANO DESIGN WEEK – BRERA DESIGN DISTRICT

## **aLUZejos**

*Floreal Dèco*

aLUZejos is the new collection of decorative lamps in Forex® with ceramic effect, designed by Silvia Massa Studio in a special edition, inspired to the Milan floral architecture style of the beginning of '900.

Lamps light and durable, easy to apply and to place. Lamps that decorate and in addition to illuminate, make the house warmer, lively and cosy.

Extremely practical lamps, which work perfectly in solo as in in combo to offer endless possibilities of composition and lend alongside bold and innovative furniture solutions.

Polished tiles (Az-zulaiy: Arabic for polished stone) which, thanks to the proud imprinting of Silvia Massa Studio, discover a new reason of being and a more contemporary functional use.

### **Cavalli e Nastri**
