

Fragranza Bellini

The choices to fill our glasses are very wide, but only a special spell is able to accomplish the company of a beloved taste in our daily routine. This magic is possible thanks to the unique art of Dr.Vranjes Firenze, enriching its collection dedicated to “Chin-Chins” with a new and tasty Fragrance.

The sweet notes of Bellini are inspired by the fresh and fruity aromas of one of the most beloved cocktails, created on the Venetian lagoon, before reaching its summit in the stylish New York.

The Bellini, invented by Giuseppe Cipriani in one of the most famous and luxurious hotels in Venice, takes its inspiration from the warm pink color used on the masterpieces of the great Venetian artist. Its breath starts with the fresh union of the vivid essence of Apple and the sugar notes of Grapes, then enveloped by the sweet taste of Peach. The precious note of Bergamot is then blurred by Bitter Orange, which is also surprised by the glee of Mandarin. The soft notes of Apricot arise with vivacity, completed by the original flower touch of a Jasmin and Lily of the Valley bouquet, enhanced by the fresh and fruity perfume of the refined Litsea Cubeba.

The intense and inebriating scent of Bellini ends with the interesting blend between the sensuality of Amber, the warm breath of Cedar wood and the green strength of Vetiver, able to fix the fragrance without blurring its soul, leaving the sweet whisper of Bellini arise, with a final sparkling touch of Ginger.
