

“Japanese Modern Vintage” at MILAN DESIGN WEEK 2017

Sanwa Company is pleased to present its new project “**Japanese Modern Vintage**”, during the upcoming **Milan Design Week 2017**. The eye-catching installation will be showcased in the upmarket location of “**SolferinoLab**”, in the Brera Design District.

“**Japanese Modern Vintage**” is a contemporary concept of blending in vintage spaces and modern furniture, mixing past and future, thus creating a fashionable though intimate atmosphere, thanks also to the set up designed and curated by Bestetti Associati.
