

The Latest by Vibia in Brera

The lighting company **Vibia** invites professionals and design enthusiasts to see first hand their most recent collections at the **HI LITE Next** showroom, Milan during the upcoming Salone del Mobile 2017.

The **HI LITE Next** showroom, located on via Brera 30, 20121 Milan, is renowned for its avant-garde lighting and Smart Home technology. Between April 4th and 9th it will host the presentation of **Vibia's** most recent collections; **GUISE, WONDER, JUNE, ALGORITHM** and **EMPTY**.

On Thursday April 6th there will be an official cocktail reception from 7 PM till 9.30 PM. Normal opening hours are from 10 AM till 10 PM

These latest collections are defined by their creativity and superior technical performance. With these collections **Vibia** provides design professionals and users with a series of bespoke lighting solutions that can adapt to any project and lighting condition by providing comfortable levels of illumination that help create unique spaces.

GUISE is a new collection created by **Stefan Diez** that confers a poetic materiality to the passage of light through material. **PALMA** is the latest collaboration between **Antoni Arola** and **Vibia**, a timeless collection of lamps that incorporate nature within a warm ambient illumination. The conviviality of life under the stars is celebrated with the **Emiliana Design Studio** collection **JUNE** with its versatile garland of crescent shaped lights that can be hung from any surface and battery powered table top models. **ALGORITHM**, designed by **Toan Nguyen** is an award winning light defined by its innovative and sculptural combination of hand blown glass craft and cutting edge technology. And finally **EMPTY** designed by **Xuclà** is a geometric architectural outdoor light that doubles as seating.

About Vibia

Founded in 1987, VIBIA is a design-oriented lighting manufacturer based in Barcelona. The company operates in more than 80 countries around the world, including a subsidiary in the United States. VIBIA's mission is to provide the right solution, with a unique range of products that inspires the creative abilities of architects, interior and lighting design professionals.
